PRESIDENTS REPORT

Hi Members,

The AGM is to be held on the 10th of July and I am hoping to see as many members as possible to attend this important meeting in order to cast their votes for all the upcoming positions.

At the AGM all members will be issued with two raffle ticket books (to the value of \$20 per book and they will have allocated numbers on the back of each book) and we would really like each member to sell their two raffle books prior to the upcoming Camden Car Show.

If you require more raffle books then we will issue them to you.

Please do not forget our monthly run to 'Lost in the Fifties' which is on the 19th of August. Hope to see you all there.

Please let me know in advance who will be attending the upcoming AGM so I can organise all the food for that evening.

Regards

JOHN

EDITORS NOTES

Hi Guys and Gals,

Welcome to the July edition of our magazine.

It's been cold outside but we have had a few weekends of nice weather. The Rattle & Hum show at Castle Hill was a prime example. Check out page 16 to see what Chev's were on show.

I would like to thank our new member Michael Harloff for sending through a story on the build of his Torana. Details are on page 14.

After last months meeting, Warren Gonnano was the fastest to send in a good hi-res picture of his car for our cover photo. And what a cracker! If you would like to see you car featured, please send me a short word doc together with some quality photos.

Membership fees are \$60 and are now due. Associate memberships are \$80, please see Gary for details.

Happy Cruising

MICHAEL'S 1976 HOLDEN TORANA

My 1976 LH torana 4 door, started with me as shell , it was soda blasted top and bottom, the car was a full nut and bolt restoration, with everything being replaced or refurbished. It was built as a Sunday cruiser with horsepower and reliability in mind. It took two years to build with a lot of help from Chris Lowger and Gary wright to get it were it is today. The drive train consists of a harrop supercharged ls1 and 4l65e gearbox , and a 9 inch diff. The engine makes 600rwhp on E85. It has air-con for those hot summer days cruising. The interior is a mix of old school and new. It sits on 18 inch billet wheels. I have always been into cars since I was 16 years of age.

Many Thanks,

Michael Harloff

HISTORIC AND CONDITIONAL (MODIFIED) REGISTRATION

HISTORIC AND CONDITIONAL (MODIFIED) REGISTRATION INCLUDING 60 DAY LOG BOOK

To be eligible for historic & conditional registration you must be a member of an RMS approved automotive car club such as ours. Membership of our club is \$50 per annum.

Historic and conditional registrations are both eligible for the 60 day log book trial. The trial allows you to drive your vehicle on 60 individual days at your own discretion. Club events and club sanction runs do not impact on the 60 day log book use.

Fees for concessional registration are set by the RMS & are currently \$51 for registration including green slip plus a once off payment of \$40 for new plates. Conditional registration also attracts an additional annual fee of \$25 to the ACMC.

Personalised plates need to be surrendered, transferred, or placed on hold; the latter attracts a holding fee & any other ongoing rental costs. It is hoped that the RMS may allow personalised plates with conditional registration sometime in the future.

Historic registration (H Plate) is essentially for vehicles 30 years or older that have not been modified, some consideration maybe allowed for manufacture/dealer approved accessories, Limited safety upgrades and unavailability of original parts. In our club registration requires an annual Pink Slip.

Conditional registration (D Plate) is also available for vehicles 30 years or older that have been modified. The RMS have issued a set of guidelines (VSI No.6) that address many examples of what modifications may or may not require certification by an RMS certified engineer. For example an engine capacity increase greater than 20% or a total wheel and tyre diameter increase by more than 7% would require certification. Modified vehicles that do not need certification must have a once off Blue Slip, than an annual Pink Slip. Vehicles requiring certification require an engineer's report confirming the current modifications plus a Blue Slip, than an annual Pink Slip.

Please refer to the overleaf flow chart for further guidance and feel free to contact one of our three Plate Registrars for more information.

Kind Regards,

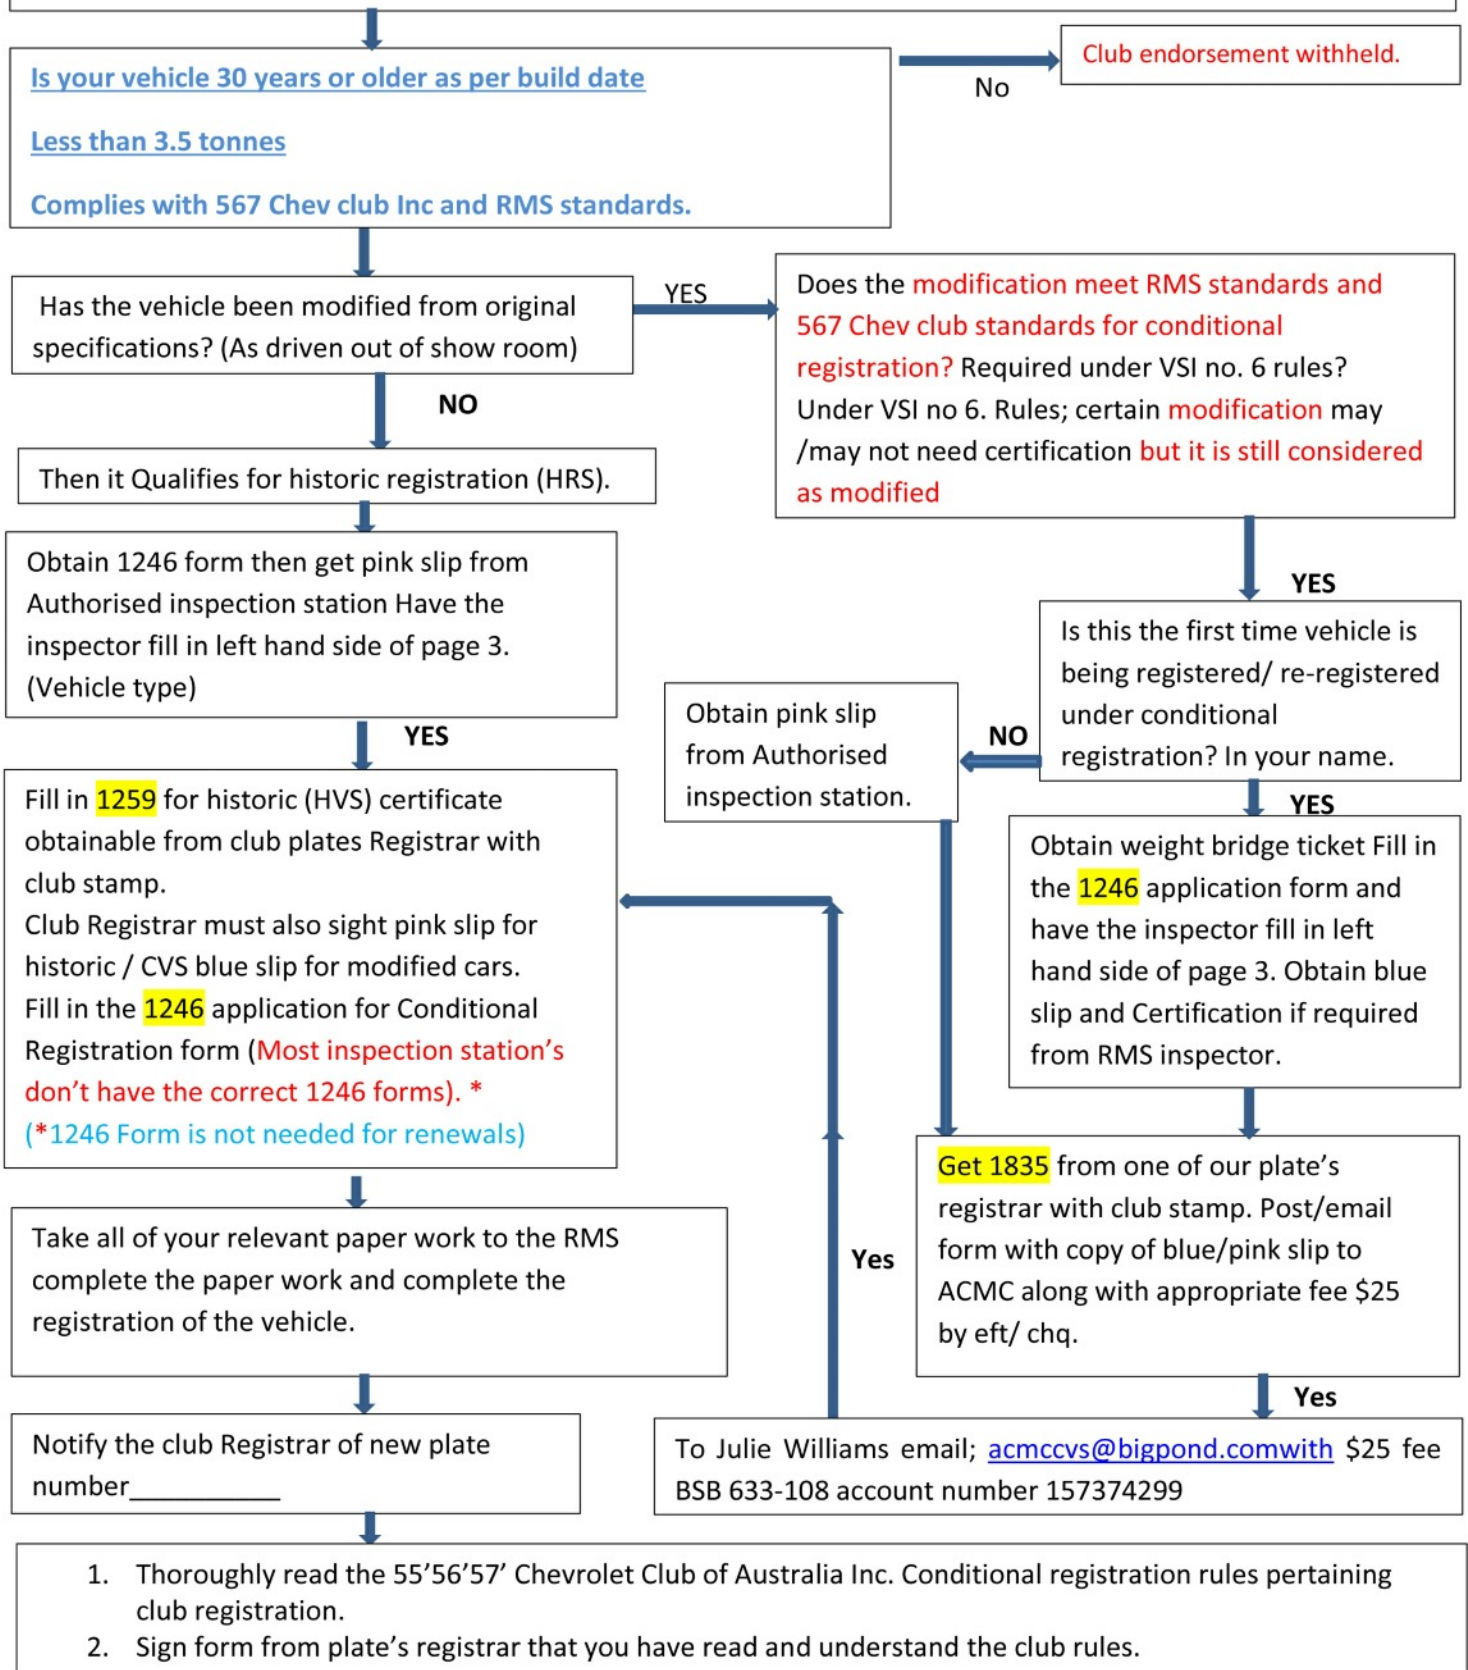

Gary Wright.

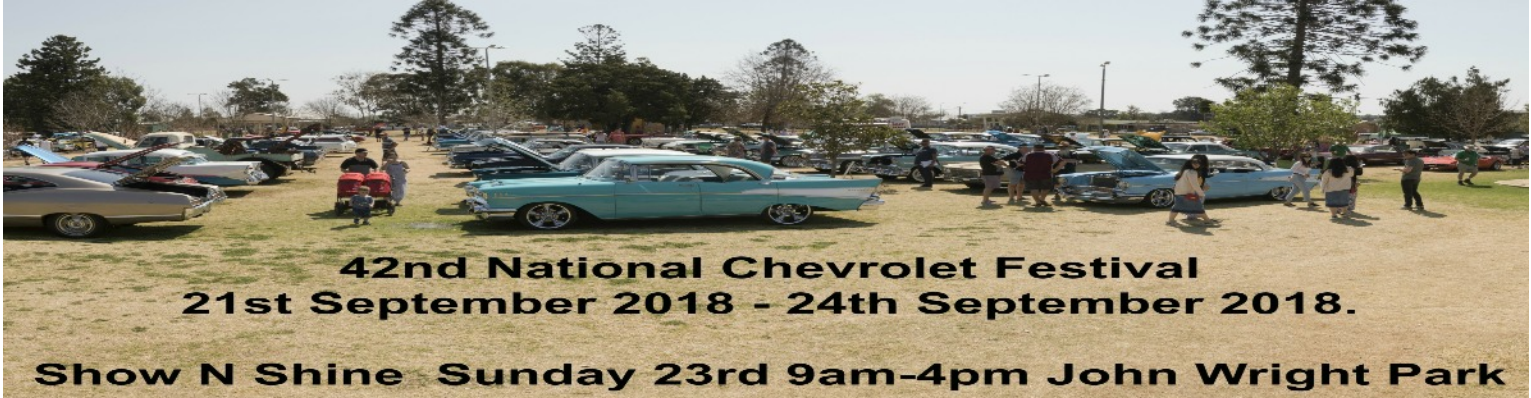

The 55'56'57' Chevrolet Club Of Australia Inc. Process for conditional registration schemes

Regardless of whether you are renewing or applying for the first time for Historic or Classic vehicle registration before you proceed you must be a financial member of the Club, live in N.S.W. and hold current NSW drivers licence, the vehicle must be garaged in NSW

Thoroughly read all of the Roads and maritime services (RMS) rules pertaining to the conditional scheme to determine if your vehicle complies with their requirements that suit your vehicle check [RMS web site](#)
There are two conditional registration schemes that apply to our cars One is Historic vehicle scheme (HVS) Or two Classic vehicle scheme (CVS) vehicles must be 30 years old as per build date,
